

STERILE PRESATURATED DISPOSABLE
LIGHT WEIGHT
MICROFIBER MOPS

Designed for the Saturix™ Hands-Free Mop Drop System

Optimized Cleaning Performance with Convenience and Validated Sterility

Microfiber cleaning power coupled with our patented Hands-Free Mop Drop System provides consistent cleanliness and minimizes the spread of dirty cleaning solutions while improving productivity. A 70/30 IPA blend offers the perfect saturation level while our robust sterilization process offers absolute confidence.

Features and Benefits

- Removes 99.9% of particles down to .1 micron in size⁴
- 70% isopropyl alcohol (IPA), 30% DI water
- 158 ft² / 14 m² coverage per mop
- Lightweight design ideal for small area cleaning, reducing cleaning solution waste
- Pocket mop design facilitates hands-free operation for ease of use and minimizes the spread of dirty cleaning solutions
- Certificate of Sterility included

Item	Size	Quantity
MA216S	16" (40 cm mop system)	5 mops/bag • 10 bags/case

Visionary Cleaning System

Saturix is a complete system for critical cleaning featuring innovative carts, mops and wipes backed by 100 years of cleaning experience. With focused product selection, it's easy to find exactly what you need right now.

Notes

1. Data shown are typical values and should not be used as product specifications.
2. Valid product comparisons may only be obtained through side-by-side testing in the same test facility, under similar conditions. Current and/or comparison data may be available. Please contact an FG Clean Wipes representative for details.
3. FG Clean Wipes makes general recommendations on which products are suitable for different cleanroom classifications. However, specific applications may affect that recommendation. The final decision should be made by the end user for their particular application.
4. Based on third party testing.

* Cleanroom class recommendations are based on typical industry-wide applications and general cleanliness classifications. Please consult our experienced FG Clean Wipes sales representatives for specific cleanroom selections for critical and/or specialized applications based on a wider selection of criteria.
