

Quality Standards

Saturix is a pioneer in the manufacturing of wipes for cleanrooms. Quality is a prerequisite to everything we make. That means the dependability and performance of our sterile alcohol spray are unmatched.

Sterile Alcohol Attributes

PH

6.0 to 8.0

Odor

Characteristic IPA

Density

0.872 to 0.883 g/ml at 20°C

Appearance

Clear, colorless liquid

Water Quality

WFI Quality

Features

- 70% USP Grade Isopropyl Alcohol
- 30% Water for Injection (WFI) Quality
- Alcohol blend filtered to 0.1 microns
- Each bottle is double bagged
- Pyrogen Free
- Gamma irradiated and validated to a sterility level of 10⁻⁶

Applications

- Surface cleaning
- USP <797> aseptic areas
- Use on gloved hands in sterile areas
- Critical medical device, biotechnology and pharmaceutical manufacturing areas
- Wipe downs for pass through controlled areas
- Ideally suited for use with Saturix sterile dry wipes
- Cleaning of surfaces, such as counter tops, pass-throughs, and hoods

Benefits

- Eliminates mixing and processing in-house
- Quick evaporation, leaving extremely low chemical residue
- Fully assembled, ready to use
- Economical pricing with bulk jugs
- Spray bottles provide custom engineered performance and safety
- Lot traceable
