

## ICT+ MICROFIBER PAD WITH PACKAGE

### Turnkey Solution Further Ensures Sterility of Compounding

Advanced microfiber technology coupled with our patent-pending touch-free system provides consistent cleanliness and optimal coverage while improving productivity. The innovative package provides a practical solution to manage used pads within the hood.

### Features and Benefits

- Removes 99.9% of particulate residue down to .1 micron in size<sup>4</sup>
- Mechanically removes disinfectant residues and other harmful particulates from the surface
- Optimized surface coverage with minimized carbon footprint
- 100% recyclable pad backer reduces waste (30% of total weight)
- Package serves as contained storage for both clean and used pads and enables easier saturation of each pad
- Optional IPA pouches (30ml) precisely and conveniently saturate each pad

Cleanroom Level Recommendation\*

Item	Size	Quantity
IPDP8	8" / 20.3 cm	4 pads/package, 15 packages/case

#### Visionary Cleaning System

Saturix is a complete system for critical cleaning featuring innovative carts, mops and wipes backed by 100 years of cleaning experience. With focused product selection, it's easy to find exactly what you need right now.

## ICT+ Microfiber Pad With Package

Independently tested by an independent third-party laboratory

Cleanroom Level Recommendation\*

ISO 3 4 5 6 7 8

Property	Typical Value
Face Material	100% circular knit polyester microfiber, 290 gsm
Inner Layer Material	100% non-woven polyester, 160 gsm
Backing Material	100% non-woven polyester, 50 gsm
Rigid Backer	High density polyethylene
Package Tray	Polyethylene terephthalate
Dry Weight / Pad (w/o Package)	18.6 g
Surface Coverage	50 ft <sup>2</sup> / 4.6 m <sup>2</sup>
Absorbency	412%
Chemical Resistance	Acids: non-effect, Alkali: non-effect

### Notes

- Data shown are typical values and should not be used as product specifications.
- Valid product comparisons may only be obtained through side-by-side testing in the same test facility, under similar conditions. Current and/or comparison data may be available. Please contact an FG Clean Wipes representative for details.
- FG Clean Wipes makes general recommendations on which wipers are suitable for different cleanroom classifications. However, specific applications may affect that recommendation. The final decision should be made by the end user for their particular application.
- Based on third party lab testing.
